CAREER OBJECTIVE

Motivated engineering graduate pursuing M.Tech in Avionics Engineering, seeking an entry-level opportunity to apply my technical skills, learn new technologies, and contribute to the growth of the organization while developing my professional career.

EDUCATION

- **M.Tech** in Avionics Engineering
Institute of Science and Technology (JNTUK), CGPA: --, 2025-2027
- **B. Tech** in Electronic and Communication Engineering
Sree Vahini Institute of Technology, CGPA: 7.6, 2021-2025
- **Intermediate**
Government Junior College, CGPA: 8.34, 2019-2021
- **SSC**
Z.P High School, CGPA: 8.7, 2018-2019

TECHNICAL BACKGROUND

Technical skills:

- Programming & Simulation: MATLAB((Intermediate), LabVIEW
- Front-End Technologies: HTML5, CSS3, BOOTSTRAP, JAVASCRIPT(Intermediate)
- Back-End Technologies: PHP
- Databases: MySQL
- Tools: Visual Studio Code, GitHub

PROJECTS

Project 1: IoT-Based Water Quality Monitoring System

Client: SVIST

Duration: Dec 2024 – May 2025 **Project Description:**

Developed an IoT-based system to monitor water quality in real-time using sensors for pH, turbidity, temperature, and TDS (Total Dissolved Solids). The system transmits data to a cloud platform (Blynk) for remote monitoring and alerts users if water parameters exceed safe limits.

Environment:

- **Hardware:** Arduino/ESP32, pH Sensor, Turbidity Sensor, TDS Sensor, Temperature Sensor
- **Software:** Arduino IDE, Embedded C
- **IoT Platforms:** Blynk
- **Communication:** Wi-Fi/Cables

Responsibilities:

- Designed and assembled the sensor circuit for accurate data collection.
- Programmed the microcontroller to read sensor values and transmit them via Wi-Fi/GSM.
- Integrated cloud platforms for real-time data visualization and alerts.

Project 2: Anodized Aluminium Products website

Technologies Used: HTML5, CSS3, JavaScript, Bootstrap

Website Link: [Website](#)

Project Description

A responsive website showcasing anodized aluminium strips and coils, designed for a modern user experience. The project emphasizes mobile-first design principles and cross-browser compatibility.

Key Responsibilities:

- Conducted **presentations** to explain solar energy savings to 50+ residents, improving community engagement.
- Collaborated with local NGOs to distribute multilingual pamphlets and demo kits.

Skills Demonstrated:

- ✓ **Communication:** Public speaking.
- ✓ **Teamwork:** Collaborated with Companies, engineers, and volunteers

ACHIEVEMENTS

First Prize - Technique Quiz

Awarded first prize in the Technique Quiz at **Sree Vahini Institute of Science & Technology**, Tiruvuru. Demonstrated strong problem-solving skills and in-depth technical knowledge under competitive conditions.

PROFESSIONAL CERTIFICATES

- Certified on “**Web development**” from Rinex.ai.
- Certified on “**Full Stack Web Development**” from Aajhub.
- Certified on “**Practical HTML and CSS**” from Infosys Spring Board.

PERSONAL STRENGTHS:

- **Self- motivated and disciplined.**
- **Good Communication skills and Flexibility** as per working environment.
- **Active listening**
